

1631 Judges, not including commissioners and magistrates.

Nobility is a government-privileged title. It is the privilege of being immune to the law. How many people have watched these judges commit kidnapping, grand theft, and know that they are taking emoluments but you can't do anything about it because they claim immunity to the law! Despite their oath of office, and a judge can be removed for bad behavior. But when is the last time we removed a judge for taking a title of nobility, striking against the constitutional form of government by holding their kangaroo courts without a jury present?

Section. 9. *No Title of Nobility* shall be granted by the United States: And no Person holding any Office of Profit or Trust under them, shall, without the Consent of the Congress, accept of any present, Emolument, Office, or Title, of any kind whatever, from any King, Prince, or foreign State.

Section. 10. *No State* shall enter into any Treaty, Alliance, or Confederation; grant Letters of Manqué and Reprisal; coin Money; emit Bills of Credit; make any Thing but gold and silver Coin a Tender in Payment of Debts; pass any Bill of Attainder, ex post facto Law, or Law impairing the Obligation of Contracts, or *grant any Title of Nobility*.
